FOOD & BEVERAGE POLICY : No Beverages will be allowed in waxing and facial rooms.

Please note : Scheduling an appointment at Logique de Beaute is acknowledgement of these terms and conditions and they apply at the time of booking.

CUTERA COOLGLIDE LASER HAIR REMOVAL SYSTEM

FOR WOMEN & MEN OF ALL SKIN TYPES AND TONES

Now men and women alike are making unwanted facial and body hair a thing of the past - thanks to the Cutera CoolGlide Laser. No more painful waxing, electrolysis or razors! The CoolGlide laser delivers 21st century technology for treatment of this distressing problem. Cleared for permanent hair reduction, the CoolGlide laser can treat men and women of all skin types safely and effectively, all year-round even patients with a suntan.

THE CUTERA COOLGLIDE DIFFERENCE

Its unique design, longer wavelength, and innovative cooling allow extremely effective and safe results.

WHAT DO COOLGLIDE LASER TREATMENTS FEEL LIKE?

As the name implies, the CoolGlide handpiece cools and soothes as it glides along your skin. When the pulse of light is delivered, some patients experience a mild pinching or stinging sensation. No local anesthesia or pain medication is typically required, however some patients may prefer to use a topical anesthetic when sensitive areas are treated.

HOW MANY TREATMENTS WILL I NEED ?

The number of CoolGlide treatments required for optimal long-term benefits depends on multiple factors such as your hair's thickness, the area treated, and your hair's growth cycle. Interestingly, not all hairs are actively growing at the same time, but actually go through three distinct phases: growth, regression and resting. Coolglide treatments work by disabling the hair that is principally in the active growth phase at the time of treatment. Since other hairs will enter this active growth phase at different times, additional treatments may be necessary to disable all of the hair follicles in a given area.

WHAT HAPPENS AFTER THE TREATMENT ?

Immediately following the treatment, the area may appear a bit red or sometimes swollen. Three to seven days after treatment you may experience what seems to be regrowth of hair. Actually, most of these hairs are being shed as a result of your treatment, and are not regrowing. Between treatments patients should not wax or pluck hair, but it is permissible to shave or trim with a scissor.

ARE THERE ANY RESTRICTIONS ON MY ACTIVITY AFTER TREATMENT ?

Following the treatment, you can return to your normal activities right away. However, since some redness may occur, you may want to plan your work or social engagements accordingly. The use of sunscreen is recommended on any treated areas exposed to the sun. Your skin care consultant may recommend that you use a specially formulated skin care product.

WHAT ARE THE POSSIBLE SIDE EFFECTS ?

Although patients experience few side effects, the most commonly noticed are slight reddening and local swelling of the skin, similar to a sunburn. These effects typically last for several hours or less. In rare instances, blistering may occur. Consult with your medical professional for complete information on the benefits and risks of treatment.

HOW DO COOLGLIDE LASERS COMPARE WITH ELECTROLYSIS ?

Electrolysis is a tedious, invasive and painful process that involves inserting a needle into each individual hair follicle and delivering an electrical charge to them one at a time. Electrolysis often requires years of treatments at regular intervals. By delivering light energy to hundreds of hair follicles at a time, Coolglide laser effectively treats an area in just seconds that would take over an hour with electrolysis.

WHY CHOOSE COOLGLIDE LASERS OVER OTHER LASER HAIR REMOVAL SYSTEMS ?

Using the latest technology in laser hair removal, CoolGlide Laser Systems can rapidly treat large areas without the limitations of older technologies. The CoolGlide system's longer wavelength allows it to be used safely and effectively on patients with light or dark skin as well as tanned skin. Unlike other systems CoolGlide can treat the fine hair on a woman's upper lip just as easily and effectively as the coarse hair on a man's back. The cooled hand piece increases patient comfort and minimizes the adverse skin reaction commonly seen with other lasers.

The CoolGlide System wins the 2003 ATnT Award for :

- The Most Diverse Aesthetic Laser ,
- Best Hair Removal Laser for Dark Skin Types ,
- Most Diverse Hair Removal All Skin Types ,

CUTERA PROWAVE 770 HAIR REMOVAL Programmable Wavelength Technology for Hair Removal

Laser hair removal technology has progressed over time from shorter to longer wavelengths as practitioners successively adopted alexandrite, diode and Nd:YAG lasers. This movement was driven by the advantages of deeper penetration and a better epidermal safety profile. The ProWave 770 technology allows practitioners wavelength flexibility - the ability to select the optimal wavelength distribution for hair removal in different skin type patients. By controlling the current density, both the wavelength and pulse width are tailored to optimize hair removal efficacy for skin types I-V using a single handpiece.

The Prowave 770 Advantages

- Designed and customized for skin types I-V
- Fast treatment speed; treat an average-sized back in 15 minutes.

Simple, intuitive operation - select from program A, B, or C for safe and efficacious treatments.

THE PROWAVE DIFFERENCE

The prowave hair removal system delivers a specially tailored light source for permanent hair reduction. Cutera's newest hair removal innovation provides treatment for a wide range of skin types. An additional patient benefit is the ability of the handpiece to treat large areas such as women's legs and men's backs - quickly and safely.

WHAT AREAS CAN BE TREATED WITH PROWAVE?

ProWave can remove hair from all parts of the body including the face, legs, arms, underarms, and back. It can also treat sensitive areas like the chest, nipples, and bikini line.

WHAT DO PROWAVE TREATMENTS FEEL LIKE?

When the pulse of light is delivered, some patients experience a mild pinching or stinging sensation. No local anesthesia or pain medication is typically required; however, some patients may prefer to use a topical anesthetic when sensitive areas are treated.

HOW MANY PROWAVE TREATMENTS WILL I NEED?

The number of treatments required for optimal long-term benefits depends on multiple factors - hair thickness, the area treated and your hair's growth cycle. Each hair grows at a different rate and goes through three distinct phases: growth, regression, and resting. ProWave treatments work by disabling the hair that is principally in the active growth phase at the time of treatment. Since other hairs will enter this active growth phase at different times, additional treatments may be necessary to disable all of the hair follicles in a given area.

WHAT HAPPENS AFTER THE TREATMENT?

Immediately following your ProWave treatment, the area may appear a bit red and swollen. Three to seven days after treatment you may experience what seems to be regrowth of hair. Actually, most of these hairs are being shed as a result of your treatment and are not regrowing. Between treatments you should not wax or pluck your hair, but it is permissible to shave or trim with a scissors.

ARE THERE ANY RESTRICTIONS ON MY ACTIVITY AFTER TREATMENT?

Following the treatment, you can return to your normal activities right away, but some redness may occur. The use of sunscreen is recommended on any treated areas exposed to the sun. In addition, you may use a specially formulated skin care product line or prescribe a skin care regimen especially formulated for your skin type.

WHAT ARE THE POSSIBLE SIDE EFFECTS?

Although patients experience few side effects, the most commonly noticed are slight reddening and local swelling of the skin, similar to a sunburn. These effects typically last for several hours or less. In rare instances, blistering may occur. Consult with your medical professional for complete information on the benefits and risks of treatment.

CUTERA PROWAVE 770 HAIR REMOVAL Programmable Wavelength Technology for Hair Removal

HOW DOES PROWAVE COMPARE WITH OTHER HAIR REMOVAL METHODS?

Shaving, waxing, and depilatory creams are all temporary methods which must be repeated on a frequent basis. ProWave offers permanent hair reduction for lasting results.

HOW DOES PROWAVE COMPARE WITH ELECTROLYSIS?

Electrolysis is a tedious, invasive, and painful process that involves inserting a needle into each individual hair follicle and delivering an electrical charge to them one at a time. Electrolysis often requires years of treatment at regular intervals. By delivering light energy to hundreds of hair follicles at a time, ProWave effectively treats an area in just seconds that would take over an hour with electrolysis.

WHY IS PROWAVE A GOOD CHOICE OVER OTHER HAIR REMOVAL SYSTEMS?

Using the latest technology in hair removal, ProWave can rapidly treat large areas safely and effectively on patients with a wide range of skin types. The cooled handpiece increases patient comfort and minimizes the adverse skin reaction commonly seen with other light sources.

PRE-TREATMENT REQUIREMENTS

1. Shave area to be treated at least 4 days to a week before treatment. Male clients should shave a day before.
2. Hair should be 1 mm in length.
3. Female clients should not wear any make-up before treatment due to the pigments which interfere with the procedure.
4. If sensitive to a slight stinging sensation, clients may use topical anesthetic eg. Emla or Topla 30 minutes prior to treatment. This cream should be brought along for top up before treatment.

POST-TREATMENT REQUIREMENTS

1. Always use sun protection and remember to reapply according to factor number.
2. Exfoliate one and a half to two weeks after treatment to assist the hair to fall out and prevent ingrown problems.
3. Do not thread, wax, pluck, use depilatory creams or bleach whilst on a course of laser treatments. Shaving or trimming with a scissors is permissible.
4. Try to keep scheduled appointments so as to keep up with your hair growth cycle.
5. No hot showers or use of abrasive products immediately after treatment.
6. Make sure not to use products that contain alcohol after treatment.

CONTRA-INDICATIONS

1. If pregnant check with your doctor.
2. If using Retinol A products or on Roacutane one should wait at least 3 to 6 months before having a laser treatment.
3. If epileptic check with your doctor.
4. Patients with Pacemaker.
5. Grey hair cannot be treated.

ALL SYSTEMS OFFERED IN ACRYLIC, GEL, FIBRE OR SILK

Lilian Terry International researched and developed a natural product range based on a synergy of homeopathy and aromatherapy. All products contain homeopathic remedies, superior grade essential oils and pure cold pressed carrier oils. They contain no artificial fragrance or colouring agents and are not tested on animals. Apart from the therapeutic and preventative uses of the products, they also give excellent cosmetic results by improving elasticity, firmness and hydration of the skin.

*Client will be given a Cellulotherapy 1,2,3 set for home treatment.
Apply on problem areas daily in the morning & night after shower.*

The Cellulite body wrap focuses on areas of the body that are difficult to re-shape even after weight loss. It has been designed to reduce stubborn fatty deposits, improve the circulation in the areas of cellulite and detoxify, improve skin texture and tone.

Who should use ?

People who experience :

- Cellulite problems especially in the area of buttocks, thighs, calves and abdomen.
- Poor skin regeneration and skin tone due to deposits of cellulite.
- High deposits of fat and cellulite that are stagnating
- Lymph flow and natural detoxification.

This treatment must be done in conjunction with a balanced eating & exercise plan as well as the intake of 8-10 glasses of water a day. Not to be taken 30 minutes before or after a meal.

Lamelle Research Laboratories is a biotechnology research company that manufactures products locally for the South African market with a special interest in cosmetic dermatology.

Lamelle Research Laboratories was the first to launch Nobel price winning Nano-Capsulated Recombinant Human Growth Factors 100% Homologues to human protein in South Africa, which has proven to be popular with Doctors and therapists due to it's results for anti-ageing under the brand Dermaheal. This is one of many firsts for Lamelle including Ovelle, the first oral supplement for hormonal pigmentation.

Luminesce was launched in 2009, a comprehensive treatment range designed to effectively treat epidermal hyperpigmentation. Luminesce will also stimulate fibroblast activity to provide an anti-ageing effect.

Clarity and Acnevelle was launched in 2010 introducing the 'inside-out' treatment principle. This is a synergistic approach that incorporates a topical treatment range together with an oral supplement.

These home treatment products (lamelle clarity and acnevelle) used in conjunction with each other may provide an 88% improvement in problematic skins within 4 to 8 weeks of use.

Lamelle Research Laboratories has incorporated specialised ingredients into the clarity range to address the four primary factors associated with Acne (overproduction of oil, blocked follicles, inflammation and extended inflammation) as well as the secondary concerns that include dark marks, scarring and skin dryness.

Logique de Beaute' is an accredited Lamelle Clinic that offers many specialized treatments and products for the improvement and management of many skin conditions successfully.

LAMELLE PHOTO-AGEING TREATMENT

440.00

60 min

Photo ageing is the process by which skin is changed or damaged as a result of exposure to ultraviolet radiation. This treatment is designed to prevent and treat the breakdown of the dermal components which result in wrinkles.

LAMELLE PIGMENTATION TREATMENT

380.00

30 min

Hyper pigmentation is when an excess of melanin which is the brown pigment that produces normal skin colour, forms excess deposits in the skin as a form of protection. This treatment is suitable for epidermal pigmentation which will help reduce dark marks, mottled pigmentation and uneven skin colour. (TCA lotion may be requested for visible peeling at an additional cost of R60-00)

cont

LAMELLE REVITALISATION TREATMENT

280.00**30 min**

Revitalisation is to restore the skin to an active or fresh condition. This treatment helps to improve the function of the skin and stimulate cellular replacement to create a younger more hydrated, healthier looking skin. The treatment protocol is an excellent preventative measure to delay fine lines and ageing.

LAMELLE ACNE PEEL TREATMENT

380.00**30 min**

Acne is a common skin disease characterized by comedones, papules or pustules on the face, chest and back. Acne affects 85-100% of people at some point in their lives and usually begins at puberty.

LAMELLE ACNE TREATMENT

375.00**45 min**

This treatment is designed to treat and prevent the excess sebum, dead skin cells and bacteria from clogging the pores which eventually leads to problematic skin.

LAMELLE DERMAROLLER TREATMENT

750.00**90 min**

The Lamelle Dermaroller system is a professional's only device; US , FDA, and CE approved which is used for the stimulation of the body's own production of collagen known as collagen induction therapy.

The dermaroller is used for transdermal delivery of active cosmoceutical ingredients as well as skin rejuvenation resulting in 70 - 80 % improvement.

This treatment improves wrinkles, pitted scarring, sun damage and stretch marks.

The dermaroller needs to be purchased from your therapist and this may only be used by the therapist for one person only.

Mary Cohr is a new fresh, dynamic French brand that has recently hit South Africa although having being around for over 30 years worldwide. The brand has completely reinvented the use of Aromatherapy in Skin Care and is called 'the new Aromatherapy'. A unique brand treating all skin types, and demands of the 'stressful busy lifestyle' of today. The creative genius of Mary Cohr covers not only the textures but also the amazing fragrances that turn the use of each skin care product into pure delight.

Mary Cohr treatments with essential oils take you on a journey to reach spectacular results.

CATIO VITAL FACE	480.00	75 min
A personalised and exclusive treatment for all skin types. Utilising a "sauna heat mask" to detoxify the pores followed by ionisation ensuring deep penetration of active ingredients. Skin feels beautifully clean, radiant, plump and hydrated.		
CATIO VITAL EYE	250.00	30 min
An ideal treatment for tired eyes, dark circles and puffiness and signs of ageing around the eye contour area.		
CATIO VITAL FACE AND EYE	560.00	90 min
This unique method treating both the face and eye contour area.		
CATIO VITAL LIFT "you look 10 years younger"	580.00	90 min
This non surgical lift produces an immediate lifting effect through muscular stimulation, leaving the skin firm and toned.		
BEAUTE' AROMATIQUE	380.00	60 min
A 100 % natural treatment using essential oils and plant concentrates that will fulfil your beauty objectives.		
BEAUTE' LIFTING	440.00	60 min
A treatment with 3 immediate rejuvenating effects : anti-wrinkle, revitalizing and firming utilizing marine collagen leaving the skin luminous and visibly youthful.		
PEEL AND LIFT	410.00	60 min
A skin renewal treatment, with a 'peeling action' utilising fruit acids and lifting action' with Vit C. The complexion is more radiant, luminous and age spots fade away.

PAIMORE STRAIGHT SERIES - THERMAL RECONDITIONING PERMANENT STRAIGHTENER

What is Paimore Straight Series?

The Straight Series is a permanent straightener for all hair types , fine , medium to coarse, any type, natural, hi-lighted or colour treated hair. The Straight Series is the product for you. Containing Keratin a protein which strenghtens hair preventing damage and dehydration, Collagen moisturizes preventing scalp irritation and hair loss amongst natural plant extracts, seaweeds, vitamins and amino acids which are cell building blocks. These thermally and permanently penetrate the hair by using the method of flat ironing the hair with a ceramic GHD flat iron.

The Paimore Straight Series leaves your hair not only straight but preserves and improves the hairs condition and quality, making it softer and naturally straight without the use of any harsh chemicals and an ammonia free acid balanced formula which initiates repair to damaged and dehydrated hair.

The Straight series is priced at :

Short Hair	1350.00
Medium Hair	1550.00
Long Hair	1800.00
Extra Cream per 50 Gr	100.00

Regrowth charged less
50 % of the price
